

I just learned what the Secy of Defense is up to
& I want to express myself & others about what
he's trying to get accomplished. He wants too much
authority for Federal Employees & Crane especially &
it's not good. What's already in the Federal Register
is deceiving & I want Congress to know we want
them to address this attitude from DoD & stop
the regulations from being approved & implemented.
Nothing could be worse than the DoD decision. Those
who work or have worked need to be protected from
what he's trying to do, sounds like he's playing God.
Congress wake up to our needs.

Proposed NSPS Regulations
RIN 3206 AK 76/0790-AH82
