Mr Bradley B. Bunn

I am currently a DOD
employee at Tofghanna
Army Depot.

I am writing to
plead with you to please
put a halt to the new
NSPS (new personnel system)
as it has currently been
proposed.

The new personnel
overhaul takes our civil
rights away from us.

As a baby boomer
Federal employee with
29 years of service I
have already experienced
more opportunities given to
the younger workers entering
the workplace.

Also over the years I
have witnessed obvious
"NEPO-tism" and favoritism
and I am sure we will
see more of this with the new
personnel system but now it will

be without any rights for
us for appeal or grievance.
I strongly believe
the new 5¹⁵ team will
discourage team work and
hurt morale of the workers.
As a hard worker and
conscientious worker on
behalf of myself and all
Federal employees especially
the "Baby Boomers" I am
asking you to please
help us retain our dignity
and rights.

Thank You
Marie Zaleske
Tobeyhanna Army
Depot (DAD)
