ATTN: Brad Bunn

I'm Joann Murray. I've worked at Lincoln AFB, OKC, OK 73145 for 28 years this past Dec 6, 04. I've only worked at this job in 3001 Upstans engine records for about 5 or 6 years. Last year on my April yearly Appraisal I got 79 & the year before 61. I know my job all I've been trained on. They graded me that I needed to do better on some thing I'd never been trained on. This year I should do much better because I've been trained on 2 more things (jobs) I'm a GS-5 Step 10. Who should I talk to if I get a bad performance rating again? I believe in the new rules performance VS Longevity if you were graded on it. In Supply where I come from, I got over

excellent and reward pay
on my appraisal (money in
a ~~box~~ ^{can}) excellent Certificate
every year for the last
4 or 5 years before they
contracted it out.

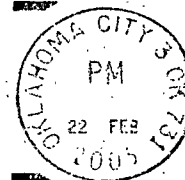

Over where I'm at I've
gotten very bad except
this past year was some
better but not good
enough for what I do.

I'll be waiting for
your reply

Thanks so much
for your time

Joann Murray
